Arch Systems Inc. | Jan 2017 – Dec 2017, Mountain View, CA

Created Arch's design system to improve consistency across products; Contributed to 10X visitor count of marketing website — Expanded site to >50 pages, optimized desktop/mobile loading speeds by 50%, increased SEO scores by 40%, improved scaling with Jekyll framework; Conducted market research of customers including Fortune 500/1000 companies, and designed marketing collateral.

Freelance Web Designer

www.darrensdsgn.com | Jul 2016 – Present, Remote

Designed websites for small business and organizations to boost online presence; Increased marketing reach through SEO and marketing tools like Google Analytics (work available on portfolio).

Projects

My country wants to cashless, so I redesigned a digital wallet

UX Collective - www.bit.ly/medium_dbspaylah | Jun 2018

A personal redesign project that reached 6,000 views within a week, got me invited to Development Bank of Singapore to talk about the project, and received praise from Senior Managers of various banks and Design Leaders from reputable agencies and companies like IBM and Pivotal.
